## *VUKOVAR WATER TOWER – THE SYMBOL OF CROATIAN UNITY*

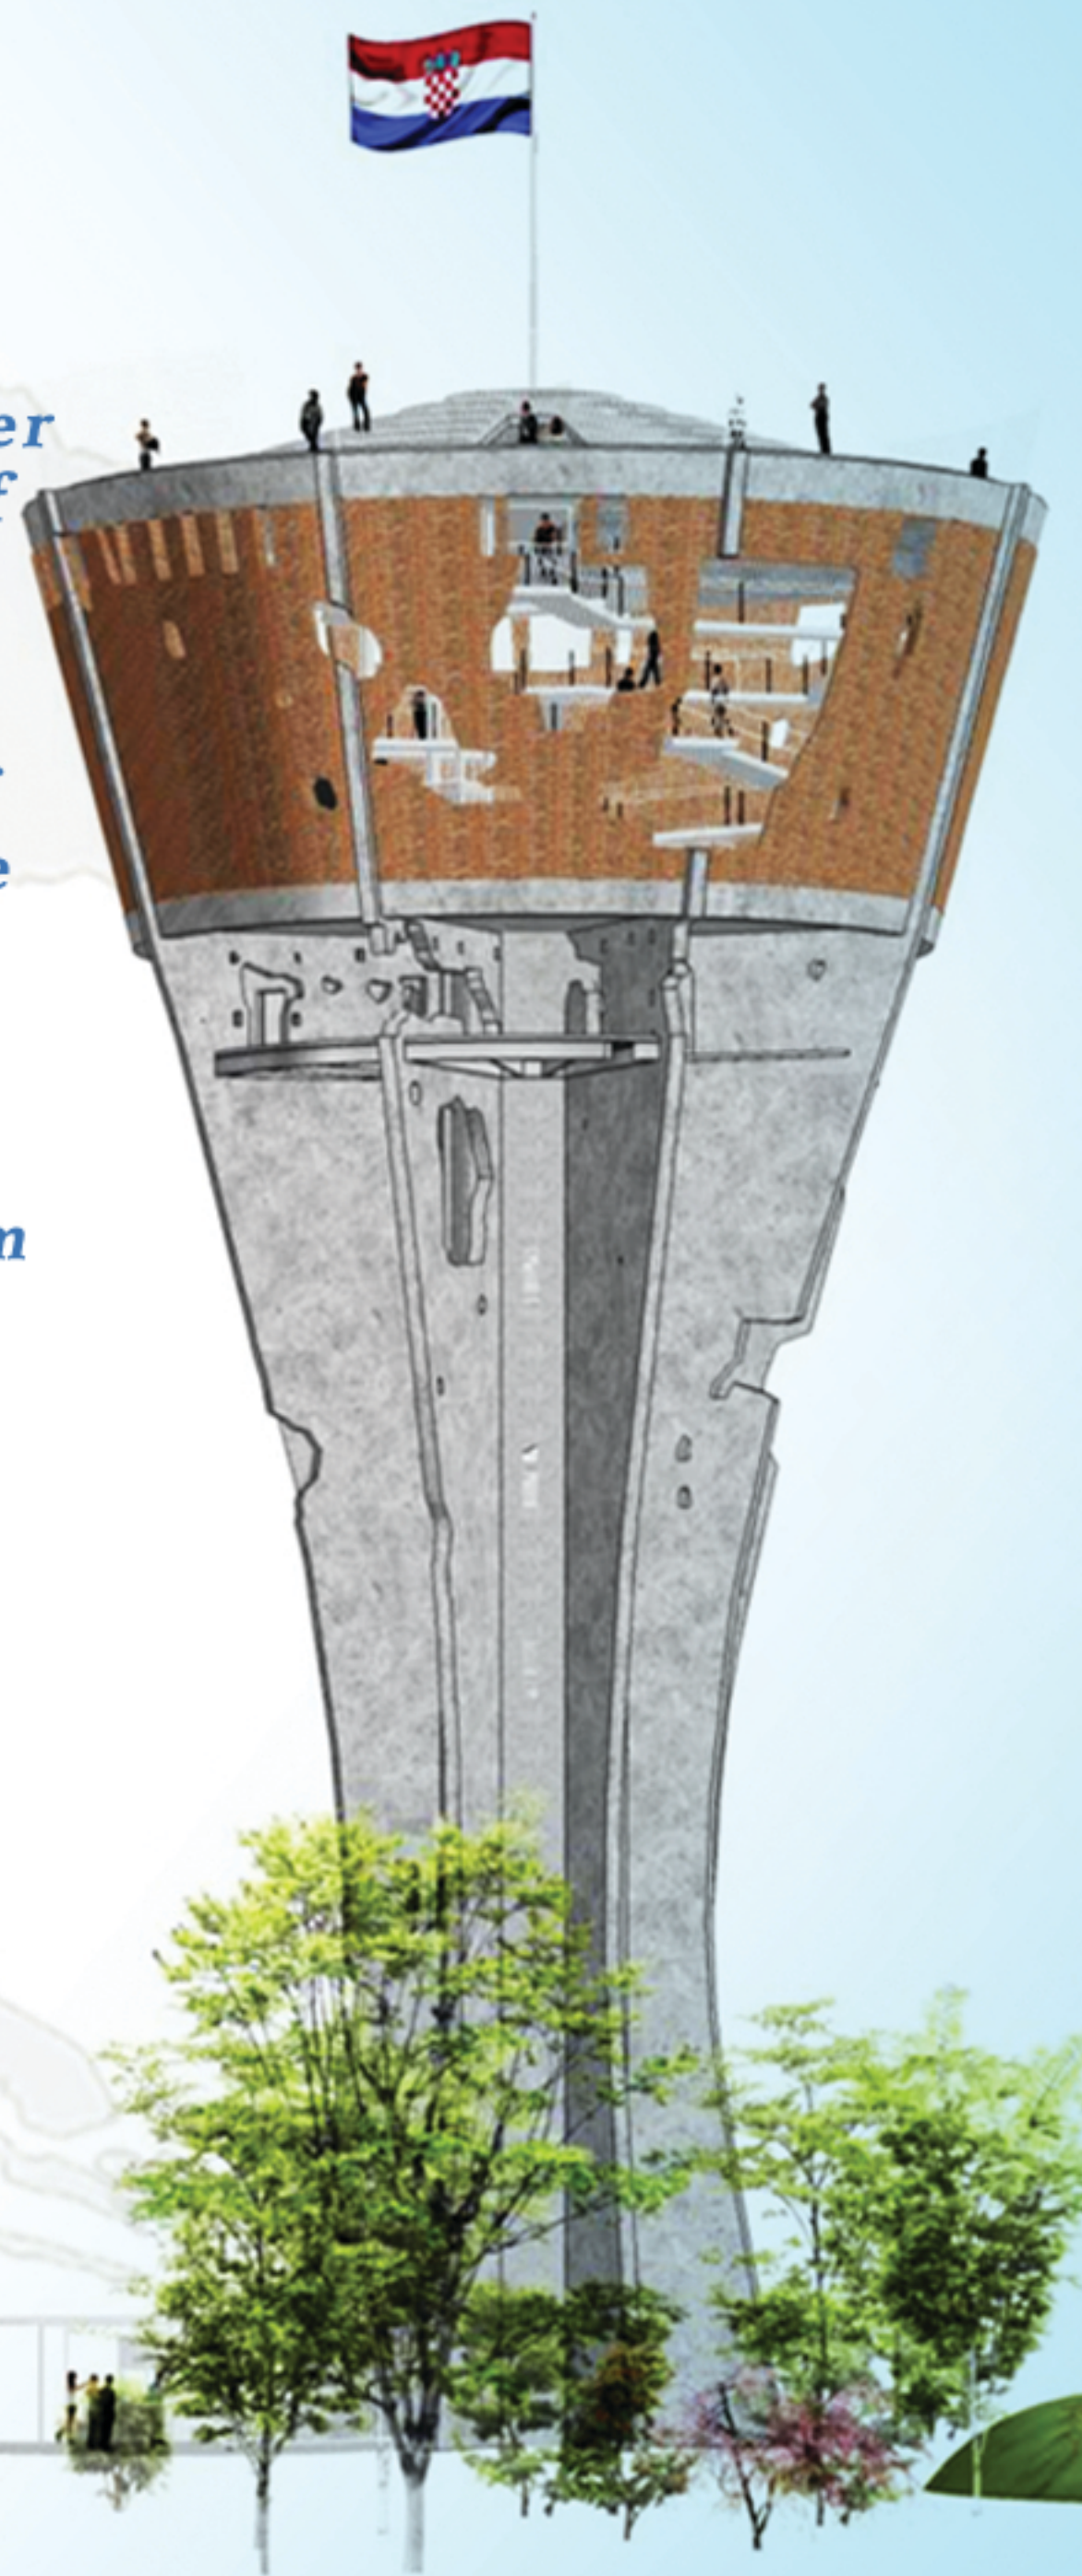

*This project was initiated by the Mayor of the City of Vukovar, Mr. Ivan Penava, and it is under the auspices of the President of the Republic of Croatia, Ms. Kolinda Grabar Kitarović.*

*We hope you will join us in carrying out the project of rehabilitating the greatest symbol of the Homeland War, the tower that refused to be torn down. During the three-month siege of Vukovar, by Yugoslav People's Army and Serb paramilitary forces, it stood side by side with Croatian defenders, both military and civilian, defiantly flying the Croatian tricolour flag from its top while being hit by thousands of shells.*

*“Vukovar Water Tower should be a permanent reminder of our unity in the past, and of the strength and achievements of Croatian defenders in the defence of Vukovar and Croatia. It should be representative of our and our country's future, which can only be strong and successful if we follow the path of unity demonstrated during the creation of Croatian state”, said Mr. Ivan Penava, the Mayor of Vukovar.*
