

QUALITY POLICY STATEMENT

When it comes to mobile materials handling and lifting equipment, Wilmat has grown to become a market leader, offering an unrivalled range of bespoke services for customers of all sizes across a wide range of sectors.

Whatever your handling needs, from a single truck to a complete handling solution, Wilmat can provide innovative products, built to the highest standards at its production facility in Birmingham, right at the heart of the British manufacturing industry.

In support of its 'standard' product range, which includes stacker trucks, counterbalance trucks and mobile cranes - our industry-leading design team is able to develop bespoke products tailored to meet the needs of niche markets and individual customers.

Everything we build is manufactured to 'Best of British' standards by a passionate workforce proud of its heritage and reputation for excellence, a reputation enhanced by the achievement of the ISO9001 Standard.

Furthermore, the work of the manufacturing team is backed up by first class after sales support with nationwide coverage to ensure all our products deliver a lifetime of reliable and effective service.

Whatever we do, we aim to make life as easy as possible for our clients, from providing full project management to offering flexible finance arrangements. We even supply used equipment and a hire service to enable customers to cope with peak periods or unexpected workloads.

At Wilmat, customer care really does mean caring for our customers.
