

## Spring Lift Trolleys

The spring loaded deck moves upward according to the weight of the load in-situ

- Spring lift trolleys provide a convenient height for operators to load and unload from without having to bend and stretch
- Eliminates operator strain injuries
- The platform level automatically keeps the top of the load at a comfortable working height
- Virtually maintenance free
- Ideal for use in production and assembly lines
- Polyethylene construction with zinc plated lifting mechanism
- Easy to adjust spring action for lighter load capacities
- Castors are set in a diamond formation for maximum manoeuvrability. 4 corner formation is available upon request.
- Please see table below for standard sizes offered
- Other sizes also available upon request.

Capacity	100kg	200kg
Overall external L X W X H	1200 x 685 x 645	1690 x 970 x 690mm
Overall internal L X W X H	1025 x 630 x 635mm	1555 x 830 x 600mm
Overall height incl. castors	795mm	850mm
2 fixed, 2 swivel castors	Ø100mm	Ø160mm
Castor material	Non marking rubber tread	Nylon
Weight	40kg	50kg
Type	<b>4504</b>	<b>4505</b>
